# Facilities, Equipment and Other Resources

## (a)  Facilities

The Department of Computer Science and Engineering provides space for faculty and research supported graduate students. There is computer systems administration support provided by the department.

## (b)  Equipment

Computers and connectivity are provided for the PI and graduate students.

## (c)  Other Resources

There is significant forensics data in handwriting, footwear impressions and fingerprints available from previous support by the NIJ. The PI is currently serving on NIST/NIJ panel on human factors in handwriting analysis which provides a valuable connection to the forensics practitioner community.
